The trouble and perplaxity of filling a shut the, (as in other machines,) is in this avoided; no shuttle is employed, the under thread being used pounds of steam. The steam was immediately raised, and in three-fourths of an hour the boat was at the scene of the disaster, Capt. Atwood working all the time like a Trojan. When the boat came up, it was found that the crew had been rescued as before stated. The propeller was burned down to the water's edge, but she had not sank when the "Ariel" left New Bastunore this marning, her smokestack being still visible. The crew of the lost steamer had only time to save themselves by jumping into the water. They saved but little of their clothing. Giddings-The early and faithful champion or Republican principles,—though the Republicans of Lake are not now permitted to give him their votes, no remodelling of Districts can deny us the privilege of bestowing upon him our warmest friendship and admiration.

In responding to this sentiment, Mr. Gippings said that he could not find words to express his feelings in an appropriate reply. In all the relations he had sustained to the people of his district and to the people of Lake and Geanga counties, whether as Attorney, Neighbor, FrienJ or Representative, he had always been upheld and encouraged by them in a manner which left no doubt as to the sincerity of the sentiment just read. During the entire period of his political life, he had always endeavored faithfully to discharge the duties and responsibilities entrusted to him, and it ras grateful to him to know that his efforts met the approval of his constituents and neighbors. In conclusion he proposed a sentiment—the People of Paines ville and Lake County.

3. Benjamin F. Wade—The gallant champion of the rights and dignity of Free Labor, and fear-less rebuker of Border Rufflanism and Executive Corruption—a Senator worthy of Ohio.

Mr. Wang responded. He said he felt that it was no easy task to properly represent in the Councils of the Nation the sentiments entertained by a majority of the People of the Western Reserve. But whenever he had heard the people of Ohio aspersed, he had always endeavored to defend and justify them. He duty, it was pulpable to him that corruption reigned somewhere.
